

mirror cabinet

KK 30-901

Dimensions (W×L×H):
320×113×588 [mm]
Weight: 6,5 kg

KK 30-902

Dimensions (W×L×H):
640×113×588 [mm]
Weight: 12,7 kg

KK 30-904

Dimensions (W×L×H):
640×113×588 [mm]
Weight: 15,8 kg

Mirror cabinets can be made in two different types. The cabinets with a mirror door from the bottom to the very top and mirror cabinets with an integral light.

Cabinets can be equipped with light fittings designed for marine units and classified as IP44 (see our product sheet for light fittings KK 3118-1x). Internal cabinets are equipped with three shelves lower shelf with holes for cups.

The doors are fixed to the corps with the solid hinges with shutters and secured with the latches to avoid an accidental opening.

All cabinets are made of galvanized steel and powder painted or made of stainless steel and painted/not painted.

Type: With integral light (A) or without light (B)

Material: ST - steel

SS - stainless steel

Color: according to RAL (standard RAL 9003)

KK	Type	W x L x H (mm)	Distance between holes for mounting (mm)	Weight (kg)
30-901	11	320x113x588	251x400	6,5
